Simple ways to save.

Stay in the network.

The doctors and facilities in the network have agreed to provide services at a discount—so staying in network makes sense, especially when visiting an out-of-network provider could end up costing you a lot more for care. Sign in to myuhc.com > **Find Care & Costs** to locate:

- Labs.
- Hospitals.
- Mental health professionals.
- Network doctors.

Make more informed choices.

The UnitedHealth Premium® Program uses national, evidence-based, standardized measures to evaluate physicians in various specialties to help you locate quality and cost-efficient providers. Find UnitedHealth Premium Care Physicians by going to myuhc.com > **Find Care & Costs**. Look for blue hearts. ♥♥

A little
planning...

may save a
lot of money.

How to get the most out of your benefits.

Pick a network PCP.

A PCP is a primary care provider, sometimes called a primary care physician or doctor. It can be a family practitioner, internist, pediatrician or general medicine physician. Although your plan may not require you to choose a PCP, it's a good idea to have one.* Your PCP generally:

- Knows your history.
- Builds an in-depth knowledge of your health over time.
- Helps guide you on the best path of care.
- Can advise you when to see a specialist and provide electronic referrals.

Find a network provider.

Sign in to myuhc.com > **Find Care & Costs** to find a clinic, hospital or lab based on location, specialty, reputation, availability, hours of operation and more. You can even see patient ratings before you choose a provider. If you would like more information about a provider's qualifications, call the toll-free phone number on your ID card.

Take advantage of network care.

Network doctors, mental health professionals, hospitals, clinics and laboratories charge discounted rates, which can save you money. If your plan allows you to receive care outside of your network, it could cost you more.

Keep up on preventive care.

Preventive care—such as routine wellness exams, certain recommended screenings and immunizations—is insured or administered by Oxford. Learn more at uhc.com/preventivecare.

*The following counties in New York are considered within the Oxford Freedom network area: New York, Bronx, Dutchess, Kings, Nassau, Orange, Putnam, Queens, Richmond, Rockland, Suffolk, Sullivan, Ulster and Westchester. All other counties in New York would be considered out of the Oxford Freedom area, so utilize the UnitedHealthcare Choice Plus national network.

Virtual Doctor Visits and video chat with a doctor are not an insurance product, health care provider or a health plan. Unless otherwise required, benefits are available only when services are delivered through a Designated Virtual Network Provider. Virtual Doctor Visits are not intended to address emergency or life-threatening medical conditions and should not be used in those circumstances. Services may not be available at all times or in all locations.

*The Designated Virtual Doctor Visit Provider's reduced rate for a virtual visit is subject to change at any time. Check your health plan documents to see what services and providers are covered by your health plan.

Visit www.uhc.com/legal/required-state-notice to view important state-required notices. Certain preventive care items and services, including immunizations, are provided as specified by applicable law, including the Patient Protection and Affordable Care Act (ACA), with no cost-sharing to you. These services may be based on your age and other health factors. UnitedHealthcare also covers other routine services, and some plans may require copayments, coinsurance or deductibles for these benefits. Always review your benefit plan documents to determine your specific coverage details.
